Article Index

Number 1

Wavelength division multiplexed optical point-sensor networks using injection laser diode sources
J. M. Senior, S. E. Moss, S. D. Cusworth 1

Application of the holographic carrier fringe and FFT technique for deformation measurement
C. Quan, H. M. Shang, P. J. Bryanston-Cross 7

Effect of primary aberrations on transverse displacement of laser speckle patterns
L. Martí-López 15

Correlation between roughness and porosity in rocks
M. A. Rebollo, E. N. Hogert, J. Albano, C. A. Raffo, N. G. Gaggioli 21

Laser induced damage in GaAs at 1.06 μm wavelength: surface effects
A. V. Kuanr, S. K. Bansal, G. P. Srivastava 25

Fractional photon model of three-photon mixing in the non-linear interaction process
K. F. Lee, H. B. Ahmad 35

A comparison between rate-equation and Fabry-Perot amplifier models of injection locked laser diodes
M. M. Ibrahim, M. S. Ibrahim 39

Technical notes

Determination of focal length of large focal length convex lenses
O. Prakash, R. S. Ram 43

Modified nodal point method for the measurement of the focal length of divergent lenses
O. Prakash, R. S. Ram 47

Number 2

Special issue—Hybrid Optical Image Processing

Editorial
T.-C. Poon 49

Hybrid optical implementation of discrete wavelet transforms: a tutorial
C. DeCusatis, J. Koay, P. Das 51

Overview of hybrid optical neural networks
S. Jutamulia, F. T. S. Yu 59

Optical–digital processors for morphological and rank order filtering
T. Szoplik, M. Gedziorowski 73

Self-aligned imaging system using phase conjugate readout from elementary holographic grating
T. Konishi, J. Tanida, Y. Ichioka 83

Phase conjugation, edge detection and image broadcasting using two-beam coupling configurations in photorefractive $KNbO_3$
P. P. Banerjee, H.-L. Yu, D. A. Gregory, N. Kukhtarev 89

Discretized amplitude-modulated phase-only filter
K. M. Iftekharuddin, M. A. Karim, P. W. Eloe, A. A. S. Awwal 93

Trading dimensionality in signal processing
A. W. Lohmann, J. Ojeda-Castañeda, A. Serrano-Heredia 101

Application of acousto-optic interaction for holographic conversion of light fields
V. I. Balakshy 109

Spectral and polarization analysis of optical images by means of acousto-optics
V. B. Voloshinov, V. Ya. Molchanov, J. C. Mosquera 119

Programmable phase-mostly holograms and correlation filters
Y. Sheng, D. Roberge, L. Gonçalves Neto, L. Shen, G. Paul-Hus 129

Twin-image elimination in optical scanning holography
K. Doh, T.-C. Poon, M. H. Wu, K. Shinoda, Y. Suzuki 135

A hybrid optical–digital processor for image deblurring
S. Ram Kumar, V. Boopathi, R. M. Vasu 143

Number 3

Optical testing of hard disks
M. Miller, R. S. Lakes, S. Conner 151

Non-destructive evaluation of materials at high temperatures using electro-optic holography
G. K. Bhat 157

A study on spatially extended phase objects using speckle photography
H. El-Ghandoor, A. M. Hamed 163

Development of an optical sensor for dynamic monitoring of off-round and eccentric errors of cylindrical parts
H. Wang 167

Real-time histogram generation using active optical scanning
R. J. Pieper, J. K. Richstein, T.-C. Poon, D. J. Moore 171

Collimation testing of a CO_2 laser beam with a shearing interferometer
J. H. Chen, M. P. Kothiyal, H. J. Tiziani 179

One-dimensional modelling of TEA CO_2 lasers
T. Y. Tou, K. W. Beak, Y. H. Chen 183

Pulse behaviour of a compact RF discharged CO_2 slab laser
A. Lapucci, S. Mascalchi, F. Rossetti 187

In-process high power CO_2 laser beam position sensing
S.-L. Chen 193

Pressure dependence of the spectral lines of a high power, high pressure atomic fluorine laser pumped by a charge transfer from He_2^+
M. S. Zaeferani, P. Parvin, R. Sadighi 203
